

EMU OIL

- *A Proven Natural Wonder* -

Provides Relief: The Australian Aborigines has used Emu Oil for thousand of years to: reduce the pain & swelling of arthritis, heal wounds & burns and to relieve discomfort from insect bites.

Moisturizing: Naturally softens the skin and has been proven to reduce the appearance of wrinkles and fine lines.

All natural and non-toxic: Will not clog pores, hypo-allergenic and gentle for all skin types.

Anti-inflammatory effects: The potency of the anti-inflammatory effect from Emu Oil is similar to ibuprofen without the negative side affects frequently common with traditional prescription or corticosteroid based anti-inflammatory medications.

Emu Oil has demonstrated to benefit the following conditions and problems:
